## International exhibition on packaging material, technology, machinery & services

After the success of inaugural edition, the 2nd edition of Pac MechEx, international exhibition on packaging material, technology, machinery & services and its concurrent trade fairs, promises to be even bigger and will become a more focused trade fair catering to the needs of the complete value chain of packaging.

Despite the covid alarm, who's who of the food & beverage manufacturing industry attended the 2022 edition thus giving a big thumbs up for Pac MechEx along with its concurrent trade

fairs Inter FoodTech and Snack & BakeTec. The next edition of Pac MechEx and its concurrent trade fairs scheduled during June 07 – 09, 2023 in the commercial capital of India, Mumbai will once again showcase latest developments with respect to packaging material, technology, machinery and services.

Besides display of packaging material and live demonstration of labeling and packaging machines, seminars focusing on key trends and challenges being faced by packaging industry shall also be organised concurrent to the exhibition.
