International exhibition on packaging material, technology, machinery & services

09-11 June 2022

Bombay Exhibition Center,
Mumbai

Co-located trade fairs

Industry Partner

MCMA
METAL CONTAINER MANUFACTURERS'
ASSOCIATION

International exhibition on packaging material, technology, machinery & services

Pac MechEx is conceptualized with an objective to create a one of its kind platform for all the packaging intensive industries like food, beverage, retail, pharma, personal care, etc. to discuss the fast changing packaging trends and source futuristic packaging solutions to stay relevant in the market.

Being co-located with Inter FoodTech, premier technology supplier fair for food & beverage processing industry and Snack & BakeTec, international trade fair on snacks, bakery & confectionery processing and packaging builds a perfect synergy by optimizing the outcome for both exhibitors and visitors.

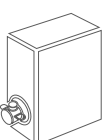

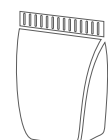

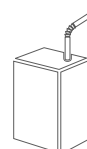

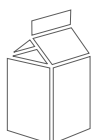

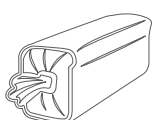

Packaging trends in the New Normal

Packaging industry across the globe gained significant benefits compared to other industry sectors due to the pandemic. Referring to multiple articles and studies published on possible packaging trends post pandemic, packaging experts identify the following things as the ones, which will define future packaging trends:

- Shopping with convenience, the power of e-commerce
- Health and safety products, providing consumers the certainty they require
- Sustainable single use packaging, circular packaging system: design – produce – distribute – consume – recycle – design.
- Supply chain agility and increased digitization and/or atomization in production

To address the above possible trends, it's the need of the hour for every packaging intensive product manufacturer to create and adopt to consumer centric and sustainable packaging solutions

Pac MechEx as an industry platform will enable networking of packaging professionals to find answers to the challenges posed by the prevailing socio-economic situation.

Exhibitor profile

Packaging material

- Paper
- Glass
- Metal
- Wood
- Plastics – flexible, semi-rigid and rigid
- Bio degradable and ancillary materials

Packaging machinery

- Vertical Form, fill and seal machines
- Horizontal Form, fill and seal machines
- Filling machines
- Wrapping machines: stretch wrapping, shrink wrap, banding
- Blister packs, skin packs and vacuum packaging machines
- Bottle capping equipment, over-capping, lidding, closing, seaming and sealing machines
- Box, case and tray forming, packing, unpacking
- Feeding, placing and related machines
- Orienting, unscrambling machines
- Palletizing, de-palletizing, unit load assembly
- Machines used for complementing packaging

- Sorting machines
- Weighing systems
- Other ancillary packaging equipment

Automation, robotics, operating equipment and auxiliary devices

Hygiene technology

Adhesives, coatings, inks, varnishes and decorative materials

Printing, coding, marking, stamping, sleeving, labelling & imprinting machine

Measuring, testing, process control instruments

Conveyor belts, accumulating and related machines

Environmental safety and recycling

Service providers

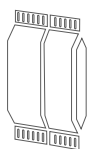

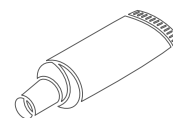

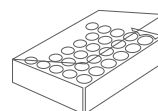

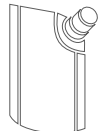

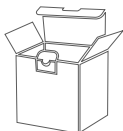

- Packaging design & development
- Software
- Packaging consultants
- Trade publications
- Industry associations

Profile of visitors to Pac MechEx

Professionals from packaging intensive industry sectors viz. food, pharma, beverage, health care, personal care, FMCG, retail, etc. taking care of the following responsibilities:

- Top Management / Decision makers
- Packaging Head
- Packaging design & development
- Research & development
- Supply chain management
- Automation
- Packaging consultants
- Service providers, etc.

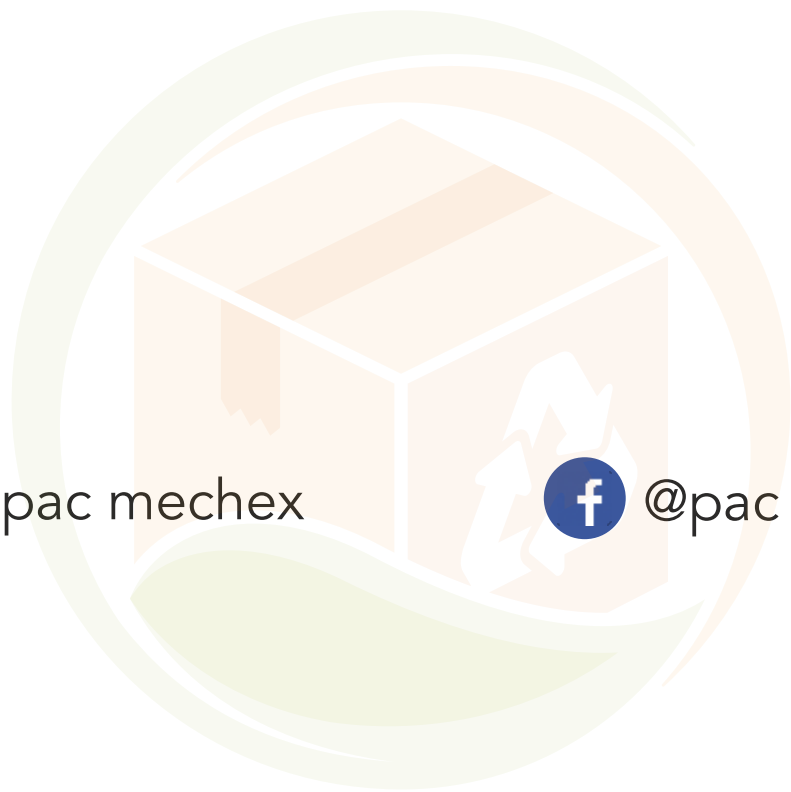

Metal Container Manufacturers Association of India (MCMA) is established to promote trade, commerce and industry in India, in particular connected with metal containers & its allied products like caps, closures, lug caps, components, printed sheets etc.

MCMA actively works towards formation and implementation of standards for the necessary raw materials, finished goods and allied products of Metal Packaging industry in India while working hand in hand with the Bureau of Indian Standards (BIS), Government departments or other authority or association of the concerned industry.

A panel discussion on the theme, 'Metal packaging of food & beverages, the sustainable way' will be organized by MCMA on January 21, 2022 at Pac MechEx. Experts representing the metal container manufacturers will highlight the advantages associated with the metal packaging of food and beverages and its contribution to circular packaging.
